

## **SHARE THE LOAD – SAY YES TO LEBRETON!**

This is what our park will look like ...for THREE years... if the main CSST extraction site is not moved!! A CONSTANT FLOW OF ENORMOUS trucks will weave through our residential streets.

And the CITY hid this from us!! This 6km tunnel should be dug from the other end – LEBRETON FLATS (which is already a construction site – not a mature residential neighbourhood like ours!!!)

Join us in sending a strong message to the  
Mayor and the City!!

**WHEN:** Wednesday, January 25, 2017 @ 11:30 am

**WHERE:** Ottawa City Hall (Lisgar Street entrance)

*Wear construction gear (headphones, hard hats, vests, etc.), if you have it.*

*Make signs if you can, but most importantly **BE THERE!***
